8th August 2014

Dear Chris and Claire,

I am writing with heartfelt thanks for your cheque for £1,000 which we received recently from the Harvey Warren Trust.

Great Ormond Street Hospital is the leading hospital in the UK for the treatment of sick children, from babies to young adults, and receives over 240,000 patient visits every year. Many children come to the hospital from around the UK, and across the world, as a place of last resort as their conditions are often so complex that they are unable to receive treatment elsewhere. Some children come to the hospital just after they are born.

The hospital provides inspirational and world-class care to its young patients, and your hugely generous gift will be put towards the hospital's greatest need, allowing it to continue providing hope to sick children and their families.

On behalf of the patients and clinicians at Great Ormond Street Hospital, thank you again for your support.

*With warmest wishes,
Jennifer*
